Amendment Under 37 CFR 1.111 USSN 10/695,768

REMARKS

Claims 1-3, 5 and 6 remain in the application, claims 4 and 7 having been canceled and

heir limitations incorporated into claims 1 and 5, respectively. Applicants respectfully request

reconsideration of the application and allowance of all claims.

The prior art rejection stated in paragraphs 4-5 of the Office action is respectfully

traversed. One significant difference between the present invention and Kim is that Kim

discloses a method and apparatus for combining a Trellis coding scheme with Pulse Code

Modulation (PCM), and not with reducing the peak power of a filtered signal. Kim does not

teach or suggest using a BCH algebraic code c(N, K) as previously recited in claims 4 and 7 and

now recited in claims 1 and 5.

In view of the above, reconsideration and allowance of this application are now believed

to be in order, and such actions are hereby solicited.

Respectfully submitted,
